

## Communication

Communication between underwater camera operator and above-water director or DoP is crucial.

In order to do that we offer wireless underwater communication system. With our Aquacom® STX-101M Surface Transceiver, RX-100 Buddy Phone® receiver and MKII-BUD Buddy Phone® transceivers complete with Interspiro Divator full-face masks, the dive supervisor will have total communication control with underwater camera crew.

## Set includes:

- Aquacom surface transceiver complete with handheld mic, charger and transducer.  
Two built-in rechargeable batteries provide 15 hours continuous use.
- Two Interspiro Divator full-face masks (aka Aga) with OTS MKII-BUD Buddy Phone®
- One RX-100 Buddy Phone® receive only units.

## Items Required

- 9V battery for each transceiver/receiver unit.
- Standard first stage diving regulator for each full-face mask.
